How do I become a certified solar panel cleaner?

When you enroll with ISCA, you're not just signing up for a course--you're investing in your safety, credibility, and long-term success. To become officially 'ISCA Certified' start with our flagship Certified Solar Panel Cleaner (CSPC) training course. It is the world's leading solar panel cleaning training.

Do solar panels need to be cleaned?

When all is said and done, cleaning solar panels is an uncomplicated procedure that you can take care of just as well as a professional. If you have a small installation, it pays off to clean it on your own because the cost of professional cleaning would exceed the estimated energy gain associated with clean solar panels.

Should you hire a solar panel cleaning company?

Enlisting the aid of a solar panel cleaning company is a reasonable choice for very large installations known as solar farms or solar parks. Why is that?

How often should solar panels be cleaned?

The cleaning may be combined with preventive maintenance of the solar collectors. Solar panel maintenance: this refers to technical maintenance carried out by a professional and should ideally take place once a year. The reason why photovoltaic panels must be cleaned is to ensure solar panel efficiency.
