Solar installers are energy professionals, not roofers. And while the vast majority of them know their stuff, there's a small possibility of problems down the line. The installer will typically ...

In most cases, the solar installation company is responsible for leaks caused by their work. This responsibility is covered under a workmanship warranty, which protects homeowners ...

But state and local rules in nearly all of the country are clear about who pays: The developer or the owner is responsible for restoring the land once a project is no longer operating.

Most solar roofing contracts that I've seen contain specific language saying they're not responsible for roof leaks or for any damages to the roof. You will need to have your contract ...

A: It may be possible to have a claim against the solar company for the damages caused by their subcontractor's negligence. You may be able to seek compensation for the costs associated ...

If you attempt a solar panel leak repair on your home, you may risk voiding your contracted warranty and safety with an amateur attempt to fix your roof and energy system.

Contact Bennett Legal today for a free skylight damage case review and let us prove your leak isn't "just how roofs age" - it's a bill your contractor is legally required to pay.

Who is responsible for solar panel repair costs? Installers tell us that the customer, the installation company, and the manufacturer generally end up being responsible for a third of the total cost for ...

The most important thing to know is this: a leak that begins after a solar installation is almost always the direct responsibility of the solar installer. The issue is rarely the roof itself; it's the ...

Who is responsible for compensation for photovoltaic panel leakage

Based on the information you have provided, it is likely that the solar company is still responsible for the damages to your roof, even though the warranty has expired. This is because the solar company is ...
