Just like most of the world, the voltage in Yemen is 230 volts and the frequency is 50 Hz.

Yemen uses a voltage of 230 volts, which is different from the standard 120 volts in North America. You will need a voltage converter or transformer if your electronic devices are designed for 120 volts.

In country Yemen is voltage 230 V and the voltage frequency is 50 Hz. If the voltage in your country is between 220V - 250V (as is in the Europe, Australia and most of Asia) you can use your equipment.

Yemen uses outlet types A, D, G at a voltage of 230V and a frequency of 50 Hz. Plug Compatibility: Type A, Type D, Type G. Voltage: 230V. Frequency: 50 Hz. Can North Americans use Electronics in ...

What is the plug for Yemen? Before you travel, check the information below to make sure your electronic devices are compatible with the outlet type and voltage. Yemen uses outlet types A, D, G at a ...
